Full-Stack Web Development: PHP, HTML, CSS & JavaScript

This certificate recognizes the successful completion of the Full-Stack Web Development Specialization, demonstrating mastery of modern web technologies including HTML5, CSS3, JavaScript, React, Node.js, Express, MongoDB, and PHP. The recipient has developed comprehensive skills in building responsive user interfaces, creating secure server-side applications, designing RESTful APIs, and deploying scalable web solutions. Through hands-on projects and real-world examples, they have proven their ability to develop complete web applications from concept to deployment, positioning them as a qualified full-stack developer ready to contribute to professional development teams.
